

## Orbit Pharmaceuticals

- It is a globally recognized pharmaceutical manufacturer, employing **over 100 highly skilled professionals worldwide**. Our team includes research scientists, regulatory experts, and manufacturing specialists who contribute to our innovative product development and global reach.
- With operations spanning **more than 50 countries**, we maintain a strong presence in key markets such as the **United States, Europe, and Asia**. Our robust infrastructure and strategic distribution network support our commitment to accessible, high-quality healthcare worldwide.
- Our annual revenue **exceeds \$X billion**, driven by a diverse product portfolio that includes **branded drugs, generic medicines, and over-the-counter (OTC) products**. This financial strength enables us to invest continuously in advanced manufacturing and research capabilities.

## Manufacturing Capacity

Orbit Meldi is equipped with modern infrastructure and globally compliant systems that enable high-volume, multi-dosage form pharmaceutical production. Below is a snapshot of our manufacturing capabilities:

### Solid Oral Dosage Forms

- We produce up to **1 million tablets per day**.
- Our capsule manufacturing capacity reaches **2 million units per day**

### Oral Liquids

- We manufacture **10,000 bottles per day** of syrups, suspensions, and other oral liquid formulations.

### Parenterals

- **Liquid Injections (Ampoules):** Up to 70,000 ampoules per day.
- **Liquid Injections (Vials):** Capacity of 30,000 vials per day.
- **Dry Powder Injections (Beta-Lactam):** Capacity of 40,000 vials per day.
- **Cephalosporin Formulations (Dry Powder):** Capacity of 50,000 vials per day.

### Topical Formulations

- We produce up to **10,000 tubes per day** of creams, ointments, and gels.

### Inhalation Products

- Our inhaler production line has a daily capacity of **50,000 bottles**.

### Nasal Sprays

- We can manufacture **50,000 bottles per day** of nasal spray formulations.

## Product Portfolio

Orbit Pharmaceuticals offers a strong and diverse portfolio of **over 110 marketed products**, addressing various therapeutic needs across both emerging and regulated global markets.

### Therapeutic Segments We Serve

- |                                       |                               |
|---------------------------------------|-------------------------------|
| • Cardiology                          | • Pain Management & NSAIDs    |
| • Anti-Diabetic & Metabolic Disorders | • Neurology & Psychiatry      |
| • Gastroenterology                    | • Pediatrics & Nutraceuticals |
| • Dermatology & Cosmeceuticals        | • Gynecology & Women's Health |
| • Respiratory & Inhalation (MDI/DPI)  | • Ophthalmology & ENT         |
| • Anti-Infectives & Antibiotics       |                               |

Our products are developed with patient safety, clinical efficacy, and regulatory compliance at the core.

## Meldi Facility Infrastructure

The **Orbit Meldi facility is a 20,000 sq. ft. integrated setup** designed to streamline formulation development, production, testing, packaging, and logistics — all under one roof. It enables seamless coordination between departments and ensures operational efficiency.

### Functional Areas

- **Manufacturing Area – 4,500 sq. ft.:**  
Equipped with validated production systems, clean rooms, and controlled environments for multi-form dosage production.
- **Warehouse – 2,100 sq. ft.:**  
Features temperature-monitored zones, secure storage for raw materials and finished goods, and designated quarantine and dispatch areas.
- **Quality Control Laboratory – 1,800 sq. ft.:**  
Houses analytical and microbiological labs dedicated to in-process checks, release testing, and long-term stability studies.
- **Packaging Area – 1,100 sq. ft.:**  
Supports both primary and secondary packaging lines optimized for traceability, compliance, and international presentation standards.
- **Utility Zone – 4,500 sq. ft.:**  
Includes mission-critical support systems such as HVAC, purified water plants, compressed air systems, and other operational utilities.
- **Administrative Block – 6,000 sq. ft.:**  
Hosts corporate offices, quality assurance, regulatory affairs, and documentation teams to ensure audit readiness and centralized governance.
